The Hongkong Telegraph

HONGKONG, MONDAY, JUNE 27, 1910.

## THE END OR THE BEGINNING?

In such a conflict of will as that in which, without doubt, the ricksha coolies and the general interests of the public, or let us say for the sake of brevity the Government, have been engaged, the view taken by an intelligent outsider would be of present interest and future value. Everyone in Hongkong is so personally affected by any change or disturbance of his daily routine that it is almost impossible to get even a statement of fact uncoloured by individual or class interest. With the best will in the world to find or acknowledge ourselves deceived in the view which was forced upon us from the beginning, we must say "We told you so." Attempts on the part of interested parties to attach all the blame for the inconvenience caused by the strike to the owners of rickshas and to ascribe to their oppressive greed the discontent which caused it have surely been proved vain. The Chinese are put masters in the art of confounding issues, and it is easy to choose so obvious a scapegoat as the men who are, rightly or wrongly, supposed to earn cent per cent in the course of little over two years on an investment of eighty dollars for a rubber-tyred ricksha. The truth, however, is now clear. As we said from the first, there was no need for a strike at all, and had the ricksha coolies only been sensible enough to lay their just grievances before the Registrar General, they would have quickly obtained ample satisfaction and full justice, "well pressed down and brimming over." They chose to make themselves scarce instead, and though a witty correspondent who signed himself "Change" remarked in our issue of Saturday on "the quiet prevailing in the commercial quarter of the City" owing to the absence of the usual obstructive ricksha standing or being pushed in front of one near the curb of the pavements, and though the "inconvenience some business people had to put up with" may have had some compensation in that variety which "Change" says is the "cream of life," the ricksha pullers succeeded in making themselves vastly unpleasant as well. The satisfaction of that unpleasantness can only be realized by a stout elderly gentleman, something of an invalid, on a very hot day. "Thank Mars," has none of the attractions that such very non-equestrian exercise as walking in the sun with the temperature at anything over 80° in the shade

may offer—to onlookers. We did not like it at all, not merely because of the discomfort caused to others besides stout, middle-aged business men (to ladies, for instance) but also because of the "calm cool concentrated cussedness" as a Casual Critic has called it of that "uncivilized beast" the Chinese coolie as some still "have the temerity to call him." For we protest against "cussedness," however cool, in this hot weather or in any weather, and we maintain that the organized devilry which will, of malice prepense, put everyone to discomfort and uneasiness and cause apprehensions of riot and violence, only to be forestalled by special preparations on the part of the Police, is a sign of an evil will directed against the very source and fount of all law and order. Remedies little worse than the disease were proposed of course—"A Hongkong-Born Civilian" suggested a monopoly, and in a letter on Saturday advocated it very strongly. It will be seen that he desires to see the Government take the matter into its own hands by calling "for tenders for the sole privilege of plying rickshas for hire for a term of years." This is not to be thought of. The argument against such a fatal policy may not here be elaborated; but it will be sufficient to call to mind the grave dangers there are in all monopolies. If a monopoly is instituted in ricksha hiring why, not in chairs, why not in steam-launches, why not in sampans, why not? But why not in anything whatever? Where is it to end? Monopolies are not run for the public benefit, and we know no more forcible argument against what many loose thinkers and looser speakers nowadays call or miscall Socialism than just the very reasons why monopolies are resented to what we may call (or miscall) the "English idea" and are contrary to the spirit of the British Law. The Government here has not found it necessary or advisable to take any steps more drastic than those which suggested themselves from the beginning. Certain of the chief men of the ricksha guilds, that is to say, certain of those who, being chiefs of secret societies, have power and influence in these guilds, have had to promise future good behaviour under pain of incurring the displeasure of His Majesty's Government in this Colony. Those who have to administer this Government are men who are as jealous of individual liberty as are reluctant to interfere with anybody as we ourselves could be. But when designing, cunning minds take advantage of the poverty and distresses of so hard-working and (pace our Critics) uncivilized a class as the ricksha coolies, to pit their own wicked will and evil intelligence against the constant beneficent force of a well-ordered Government, it is well to remember that the Ruler should not "bear the sword in vain."

## LOCAL AND GENERAL

Sir John Jordan had audience of the King on May 27.

A CHINESE tailor was given three months' hard labour and four hours' stocks at the Magistrate's morning for breaking into a house.

A NATIVE was fined \$125, in default, two months' hard labour, in the Police Court this morning for concealing a quantity of opium. The defendant on finding his house raided by a number of excise officers attempted to bluff the latter by concealing the drug in an adjacent cubicle.

In the course of an action in the Supreme Court this morning, the Chief Justice, Sir Francis Piggott, said that he found that the new oath was the same as the old one. The administration of the oath under the new law was compulsory unless the juror or witness wished otherwise. That, he thought, was the interpretation of the Ordinance.

EXTRADITION proceedings were commenced before Mr. E. R. Hallifax at the Magistrate's this afternoon against two Chinese, for committing the crimes of kidnapping and armed robbery in China. Mr. H. L. Deane, Jr., from the Crown Solicitor's office, prosecuted and the prisoners were undefended. Chief District Inspector Hanson watched the proceedings on behalf of the Police. The men were remanded.

DETECTIVE-Sergeant Davies charged four Chinese before Mr. E. R. Hallifax at the Magistrate's this afternoon with stealing a box of clothing from the servants' quarters of a house in Nathan Road, Kowloon. Two of the defendants were discharged, while the other two were each awarded four months' hard labour and six hours' stocks. The two latter defendants have previous convictions against them.

A FORMER "boy" belonging to the Owl Grill Room was charged at the Magistrate's this morning with stealing two bottles of whisky, one bottle of brandy, some cigars and a quantity of birdseed and mushrooms, altogether to the value of \$18 from the scene of his former employment. It appears that the defendant was discharged about two months ago for disorderly behaviour and yesterday decided to get into trouble. He was awarded six weeks' hard labour and six hours' stocks.

PETER JOHNSON, a seaman belonging to the U. S. S. *Wilmington*, was charged in the Police Court this morning with assaulting a Japanese at No. 34, Ship Street last evening. It appears that the defendant was on special duty in the vicinity to search of an aborigine, and in the house in question accidentally caused a Japanese on the forehead of another Japanese thereby injuring the latter. His Worship directed the defendant to come up for judgment called upon.

THE English Mail of the 26th May was delivered in London on 25th inst.

A CASE of plague, which terminated fatally, occurred at No. 59, Peel Street. The victim was a Chinese.

THE death has taken place in France of the most Rev. P. X. Mugabure, Roman Catholic Archbishop of Tokyo.

A HUGE wild boar weighing 300 and odd lbs. was shot on the side of the railway line near Kamunting by Mr. Walter Boomgard.

A SCOTTISH correspondent suggests that every buyer of a dozen golf balls should be presented with six shares in any of the new rubber companies.

A GENEROUS New Jersey advertiser named Furs offers 20 cents (Strails) for each hundred B. N. B. stamps sent "in good condition." Fivepence a hundred, sender pays postage, and wait three months for your cash is hardly worth the fuss.

A COMMISSION comprising Dr. Gilmore Ellis, F.C.M.C., Straits, Dr. McDowell, F.C.M.C., F.M.S., Dr. Freer, Dr. Wellington, and Dr. Malcolm Watson, with Mr. A. P. L. Superintendent of Emigrants, is sitting at Kuala Lumpur to discuss Estate Sanitation.

THE Java Opium Regie, which largely deals in the Turkish drug, finds itself faced by a rise in prices through the operations of a trust. A knot of British and American speculators have bought up almost all last year's crop, and are trying to corner that of the present year. This year's crop is far above the average, and this opium trust is offering high prices for it.

RETURN of visitors to the City Hall Library and Museum for the week ending the 26th June, 1910:-

	Library	Museum
Non-Chinese	339	195
Chinese	193	2,405
Total	532	2,600

THE largest real estate deal in many months was consummated in Manila on 23rd inst. when Pedro P. Roxas, the wealthy capitalist who owns the controlling interest in the San Miguel Brewery, and many other large investments throughout the Philippine Islands, acquired title to two of the choicest blocks of land on Escolta, by the payment of the sum of P400,000.

A MUKDEN dispatch to the *Mainichi* states that Mr. Chow, Director of Civil Administration in Manchuria, has issued an order prohibiting Chinese subjects from selling and buying lottery tickets issued in Anhui, Hupeh, and Szechuan, under severe penalties. The official holds that the sale and purchase of lottery tickets is a form of gambling, and that in Manchuria, where the people are still in a simple and primitive state, the practice of bartering lottery tickets is likely to inculcate a passion for speculation and gambling among the people.

L. D. WEAKE, supervising inspector of hulla and boilers of the Manila custom house, arrived at Hongkong from Manila on Saturday on the *Hongkong*. Mr. Weake is here on official business, under instructions from the local collector of customs. He will inspect a customs launch for the Philippines customs now being completed at Hongkong and will also survey the steamer *Gloria*, recently purchased by the Mindoro Development Company, which, upon her arrival at Manila, will immediately enter the coastwise trade.

TAIREN seems to be threatened with the loss of the bulk of her import trade destined for North Manchuria. Hitherto, says to *Nosoya Zhai*, the bulk of the goods from abroad for North Manchuria has been landed at Tairen. A proposal has now been made to land goods arriving by sea at Nikolaevsk, on the Amur, instead of Tairen, this will effect considerable economy in the freight. The initiative of this proposal belongs to Messrs. Grosjean & Co., of Harbin, who have already begun negotiations with steamship owners on the Amur for the elaboration of an agreement in the matter.

THE export of Formosan camphor for 1909 was a record. The amount exported to London (valued 1,074,500 kins, to America 2,094,700 kins, and to India 1,930,000 kins). The American market has now wholly emerged from its depression, so that the demand for camphor also has increased in some measure. Fortunately, labour in Formosa is sufficient this year, promising an unusual production of camphor. The average amount of camphor in Formosa is about 300,000 kins every month, but this year there has been an unprecedented production, for instance over 500,000 kins in April and May.

A STRIKING instance of Oriental politeness is reported from the neighbourhood of the White City. A number of Japanese artists recently took a house at Shepherd's-bush, and several large packing cases were delivered in the garden, the unpacking of which necessitated a good deal of hammering. No one complained, but, on a day or two, after the work had been completed, one of the Japanese called upon all the neighbours, apologized most profusely for any annoyance that might have been caused, and gracefully presented the lady of the house with a bouquet of exquisitely fashioned artificial flowers.

THE Farsees are going to commemorate the first landing of their race in India more than 1,000 years ago. There is no direct historical evidence of the first coming of the Farsees to this country from Persia, their original home, nor is the place where they landed mentioned in any historical work, says the *Times of India*. But this is a very old tradition among them that they came to India soon after the downfall of their Empire in Persia and the persecution of their religion there by the Arabs, and that they first landed in this country at Sanjan, a place on the west coast, about 100 miles north of Bombay, then under a Hindu ruler, who allowed them to settle in his dominions on certain conditions. The tradition is that they came to Sanjan.

## Gallantry Rewarded.

LOCAL GERMAN SKIPPER  
DECORATED.CAPT. BENDIXEN RECEIVES WELL-DESERVED  
RECOGNITION.

Whoever remembers the typhoon of last year will remember that men of ordinary firmness and courage found it hard to do more than fend for their own safety and that of the interest which their vocation in life imposed on them as a duty to care for. The dangers and terrors of a typhoon at sea are understood by those who have nearly lost their lives in them. How GRATEFUL EIGHTEEN CHINESE ought to be to Captain Jacob Bendixen of the steamship *Clara Johsen* for bringing them out of the insanely raving terrors of the demonstration. He and his companions, two ship officers and three engineers, all Germans—and there are no braver men (though some are as brave) than the Germans—battled with the fury of the storm to save those poor people from a dashed junk.

HIS MAJESTY THE EMPEROR noticed among the many reports of occurrences in which German ships had distinguished themselves this little matter of several hours of their heroism and of that dogged fearlessness which is "echt Deutsch." And thought he ought to notice it in some way. There is only one way in which His Majesty the Emperor of Germany, the chief of a confederation of Teutons, who are allied in blood to the Angles and Saxons, can show his approval of an action which is "echt Deutsch." To send him any reward or present is so opposed to every German idea and feeling, that of course, something else had to be done. To write him a letter of congratulation would have pleased a loyal German and a good seaman. But it was not enough for the Kaiser, who rightly judged that when decent men act in a decent way, decent Kings must be Kingly, and an Emperor of Germany is a true King in the sense described by Carlyle. By honoring a brave man for a brave deed he was honoring a class of men, those of German blood who go down to the sea in ships. So he sent him the "Kronen Orden." This little gold cross, with a circle of blue enamel in its centre, on which is graven the "Iron Cross," and round which is written "GOTT MIT UNS" in Gothic characters, is only given by the Emperor of Germany to those who have distinguished themselves from the generality of mankind by their courage, endurance and

FAITHFULNESS UNDER TRIAL. For many hours the ship *Clara Johsen* tried to save the unfortunate Chinese (some were women and children) on that wave-battered wrecked junk, from which came heart-rending cries for succour. Captain Bendixen and his quiet officers were having a bad time of it in helping themselves, but they were not remiss in answering the call of humanity. They had to fight for their own lives as well for those of the Chinese on the junk. They got to windward of the latter, and with extreme difficulty managed to lower ropes and get the poor people aboard. The Chinese crew worked like Germans under such a leader as Captain Bendixen.

THE KRONEN-ORDEN is worn on the left breast, just over the heart. Over no stancher "heart of oak" will it be worn than over that of the daring old life-saver who has so justly been honoured by the great Prince who should be dear to Englishmen as grandson of our long-loved Queen Victoria, and nephew of that fine sportsman and tactful chief of men, Edward, our Edward, the Edward greatly missed and never-to-be-forgotten.

## PROPERTY RECLOSED.

MORTGAGE CLAIM BY THE CHINA PRO-  
VIDENT LOAN AND MORTGAGE CO.

Before the Chief Justice, Sir Francis Piggott, in the Supreme Court this morning, Mr. Eldon Potter moved on behalf of the China Provident Loan and Mortgage Company, Limited, that Woo Chi Cheung, at one time a trader in Wellington Street, be ordered to pay to the plaintiff the sum of \$40,000 and interest due and that an account be taken of what was due and that the mortgage be enforced. Defendant was not present in the Court-room.

Mr. Potter stated that the action was for an account to be taken of the principal and interest due in respect of a certain mortgage and that the mortgage be enforced by foreclosure or sale. Mr. H. R. Hancock stated that he was a member of the firm of Messrs. Shawson and Company, who were general managers for the China Provident Loan and Mortgage Company, Limited. Witness produced the original mortgage made between him and the defendant. The sum of \$40,000 was due under that mortgage by the defendant to the plaintiff.

Judgment was entered for the plaintiffs with costs.

## BOXING.

Britishers who dearly love contests of strength and skill especially in that most English of all sports, boxing, will have an opportunity of enjoying the sight of a really first class scientific glove fight next Saturday at the City Hall. A few people may faintly recall the adjective "battering" as applied to one Sims, a coloured "man of his hands." Now a "battering" gentleman, also coloured, content to be known as "Battering Wilcott" is going to face a champion of our Royal Garrison Artillery, Sergeant Pigott. Twenty rounds is the limit of the contest, but we have reason to believe that it will not last quite so long. The "battering" will take a deal of beating, and Pigott is a most formidable slogger. This should be the best fight ever seen in Hongkong. The remainder of the programme is of a spirited character. Mr. Lovitt, the promoter of this boxing exhibition, is well known in England and Bombay, and any glow of enthusiasm by the spectators of a man at bat will be met by the referee, who has been appointed to referee the fight, with his usual impartiality.

## THE RICKSHA STRIKE.

COOLIES RESUME WORK.

The ricksha strike is at an end. Thanks to the tactful manner in which the Hon. the Registrar General handled the men and the vigilance exercised by the Police against any subversive disturbance and the wholesome moral force they have so successfully employed over the army of coolies, the latter have been brought to their senses. On Saturday afternoon the first signs of the strike giving way manifested themselves at Saiyingspun when a few rickshas began to ply for hire late in the afternoon. The number was augmented yesterday (Sunday) and this morning normal traffic was once again resumed in the business quarter of the City, there being the usual number of vehicles at every stand.

OWNERS AND COOLIES BEFORE THE  
REGISTRAR GENERAL.

In the course of the forenoon on Saturday several owners interviewed the Registrar General and expressed their eagerness to have the likeable deadlock, with the consequential loss of money it implied, removed as soon as possible. Following the owners' visit later in the day three of the leading ricksha pullers, who were known to possess influence in the councils of the Coolies' Guild, were summoned to appear before the Registrar General. It is understood that that official pointed out the error of their ways and the uselessness of persisting in a futile attempt to lay down the law to Government, who were in the position to dictate what is right for the public weal. While the men were persuaded to smooth over their differences, they were clearly to understand that any further obduracy would be dealt with with a firm hand. The headmen among the coolies would be held responsible for the combination to resist law and order, and, if necessary, the law invoked for the riddance from the Colony of such characters as threatened the public peace.

## SALUTARY EFFECT.

Of all this plain speaking did not take long to manifest itself for, as just stated, in the course of the afternoon, some three hundred rickshas issued forth from the Saiyingspun district and, after three days' useless respite, the men were only too glad of the opportunity to earn their living. The first of this small army to regain their wonted daily avocation were not allowed to go wholly unaccompanied, for no sooner did they get within the limits of the Central District than they were set upon by the rowdies of the turbulent gang whose headquarters are in Aberdeen Street. It is reported that two rickshas were smashed in the collision. The Police, having been on the watch for any such incident, were at once on the scene and the incipient disturbance was

## NIPPED IN THE BUD.

by the arrest of two coolies who were the ring-leaders in the affair. Later in the afternoon several more arrests were effected, and the Police and Chinese detectives continued to patrol the district covered by vehicular traffic in slightly greater force. Fortunately, no further attempts at intimidation have to be recorded, although a sharp look-out was kept against the collection of large gangs in street corners, the men being kept constantly on the move.

It was the men of the Hoklo clan that tried to prevent the other men from resuming work. The Hoklos come from the mainland and their native place is at Hoi Luk-fung, near Chik-chau. They are said to be the most notoriously turbulent of the coolie class of people and, almost without exception, belong to the secret societies in Hongkong.

## RIOTERS BEFORE THE MAGISTRATE.

Five ricksha coolies appeared in the Police Court this afternoon on charges of making use of threats of violence and assault on a number of other vehicle-drivers with intent to hinder the latter from plying their hire. In the evidence, it came out that some of the defendants snatched the purse of their victims, when the Police intervened in the matter. Three of the defendants were from the Central District while the remaining two hailed from West Point. One of the men was discharged owing to an evident reluctance on the part of the complainant to give evidence against the defendant, three were awarded fourteen days' hard labour each, while the remaining defendant was remanded.

## REVISION OF THE SCALE.

It is more than likely that, once the ricksha pullers settle down in real earnest to their work, the sympathy that is unmistakably on their side on the question of the minimum fare for the fifteen minutes' ride, will assume practical form in an equitable revision of the scale so as to prevent the hardship inflicted on the men by many who interpret the scale far too literally without any humanitarian regard for the coolies. While retaining the 5-cent fare, it will remove a just cause for grievance were the authorities to adopt the plan of a sectional division of the City in the Central District, travelling beyond certain limits in which the scale of payment to the coolies would be regulated accordingly.

## COST OF THE STRIKE.

In the course of conversation with a gentleman this morning who is more or less acquainted with the Chinese working class in Hongkong, he informed our representative that the recent strike must have cost between owners and pullers several thousand dollars from the time the strike was instituted on Thursday to its termination on Saturday evening. The estimate is arrived at on the following approximate basis:- An owner of a mixed lot of 49 vehicles (1st and 2nd class) stated his loss at between \$10 and \$25 per day in the non-receipt of daily hire from coolies; the payment of the licence fee and the carpenter's wages to keep the rickshas in proper serviceable condition. Taking the average aggregate loss at \$15 for every 49 rickshas, the loss on such works out at, say, 20 cents which represents a total of \$9,800 per day, or \$19,600 for the three days.

\$3,000 LOSS. The coolies, on the other hand, calculate on earning per capita for a bare living wage, exclusive of the rent of the vehicles, not less than 35 cents a day, 40 cents would be nearer the amount. They are luxurious feeders compared to the average Chinese working class in Hongkong; have three meals a day which cost them 35 cents inclusive of *zamsai* of which they drink moderately. The Hoklo, generally speaking, is not addicted to opium as a vice; if he has a whiff, he smokes only in moderation, but believes in making provision for the inner man in order to enable him to bear the hard toil of the day. At 35 cents per man the loss in wages for the 1,150 men amounts to \$402.50 a day, that is over \$1,200 in three days. The net result of the coolies' obduracy last week has cost them in round figures three thousand dollars.

## A FALSE SCARE AT KOWLOON.

Yesterday several people got a serious scare at Kowloon. Not of a tiger, or dear so! Far worse, it was about the rickshas, the important vehicles which carry weary workers across wastes scored by the parallel cruelty of the iron road through "willow-dom" to the red-bick rest of a cottage in five persons arriving by the ferry at the mainland beyond a vision of empires, a long line of shed without a solitary ricksha. We for we were there, were told that the "Kowloon rickshas have gone strike-struck now." "Strike-struck! whatever's that?" We were told that strikes were catching, and that the Kowloon rickshas had every one done a bolt up country "somewhere among them there tents" long ago. "Long ago" turned out to be only a quarter of an hour before, but the matter was serious for middle-aged far people have not got in Kowloon what some contemporary or other called the solace of the ubiquitous tramway, which be, or it, declared could take anyone anywhere amidst ricksha, in Hongkong. We wearily believed this about Hongkong, for no tram here can possibly take one every where, and in hot weather, on a hot afternoon, in Kowloon, on Sunday too, to have to walk several ricksha journeys on one's own legs, without help, why it seemed really a case for the Police! Inspector Langley, always ready to attend to the public and to put himself to any inconvenience in so doing, took the trouble to go down and investigate the matter personally. The thing still remains unexplained. In the course of twenty minutes or so the long shed was full of rickshas. The Chinese detectives and head coolies could not explain why so sudden an exodus had taken place so shortly before. Some Chinese said that just about 4 o'clock three Europeans had been travelling by ricksha; one paid his fare, and two did not. The gentle ricksha coolies, therefore, feeling low in their minds about life in general and this instance of Caucasian domination in particular, decided that the example of the Hongkong pullers was not a bad one to follow on so mighty hot an afternoon. Others said that so, that was not the reason for the dearth of rickshas. It was caused by a sudden demand for rickshas elsewhere in Kowloon. Whatever the cause, no three Chinese agreed as to what it was, and apart from the inconvenience caused to Inspector Langley, who took a deal of trouble to see whether anything really was the matter, and if so why, and the half hour or more during which no rickshas were under the shed and people arriving by the ferry had to walk home, no harm was done. It may be borne in mind that all rickshas standing under that shed (which was erected at public expense) are obliged by law to ply for hire when required. They cannot refuse. If they do they may be given in charge. They take it in turn to come forward as each ferry boat arrives and in this way crowding and "rushing" passengers is avoided. Whether it be the persuasive way Inspector Langley has with him or whatever it may be we know not, but certainly the rickshas on the Kowloon side are kept under better control than those over here in this gorgeously named Victoria City.

## HOLY'S BOAT AT KOWLOON.

THE "PERSEUS" IN HUNGHOM DOCK.

Industrial amenities in Hongkong were never better emphasized than they were to-day when the great big *Blue Funnel liner Perseus*, of the Ocean Steamship Co., was towed into dock at Kowloon at noon to-day. The *Perseus* is a fine vessel, and she is safely off the block in the No. 1 drydock of the Hongkong and Whampoa Dock Co., Ltd., at Hunghom. She was taken to dock for the repair of one of the propeller blades damaged on her last voyage.

The fact of the docking of a Holy's steamer at Kowloon should dispel the wrong notions of detractors who, like false prophets, spoke of the death-knell of the senior company being sounded with the completion of the Taihook shipbuilding and repairing yard at Quarry Bay. The competing firms can and do—as is proved in the present instance—work in friendly rivalry. Taihook evidently believes in the policy of "live and let live." Now that their big dock is engaged with the *Mongella* occupying a berth, they have given the repairing of the blade of the *Perseus* to the Kowloon Dock, preferring that course to a dog-in-the-manger one by awaiting a vacancy that will be caused by the completion of the *Mongella*'s periodical overhaul. Evidently, the large tonnage of vessels frequenting the port finds employment for the docking accommodation provided by private enterprise in the Colony.

## A RAILWAY COLLISION.

SHOCKING DISASTER IN FRANCE.

London, June 26. Two express trains came into collision at Villeneuve, near Versailles, and both caught fire. The passengers were hurried and managed. Up to the present time no serious harm has been recorded, but the newspapers say that at least twenty were killed and fifty injured.

## A REMARKABLE PROSPECTUS.

## CLAIM FOR RETURN OF \$15,000.

Before the Chief Justice, Sir Francis Piggott, in the Supreme Court this morning, the Tsz Sang Wing firm and Chow Chiu Kit to recover the sum of \$15,000, being amount of monies paid and received by the defendant for the use of the plaintiff and converted by the defendant to his own use. Mr. Eldon Potter, instructed by Mr. Dixon, from Mr. R. A. Hardlog's office, appeared for the plaintiff and Mr. C. G. Alabaster, instructed by Mr. P. W. Golding, of Messrs. Golding, Barlow and Morrell, was for the defendant.

Mr. Potter stated that the claim was for \$15,000, money had and received. The defendant admitted receiving the money but raised the defence that the plaintiff firm was illegal inasmuch as it consisted of more than twenty members. The onus was on the defence to begin.

Mr. Alabaster said that under the Companies Ordinance, 1865, no company or association of partnership consisting of more than 20 persons should be formed after the passing of that Ordinance for the acquisition of gain unless registered as a banking partnership.

Mr. Potter—The firm was in existence in 1899 but a new firm was subsequently created.

Mr. Alabaster—That hasn't been definitely pleaded.

Proceeding, Mr. Alabaster said there were heaps of authorities that if any organization consisted of more than 20 members, it could not sue. The defendant could not put forward witnesses as the people from whom he took money were not anxious to assist him in any way (laughter).

Counsel at that point read the following amusing document:—

We have heard that nations have their laws and merchants have their regulations. The national laws being carried out, the Governmental affairs will be well managed. The commercial regulations being observed commerce will accordingly become prosperous. From all this it has always been the case in the commercial community. We would submit that the object of our setting up business in this Colony is to seek for profits. Should there be no course for the production of wealth, how could we pursue the grand mode of action taken by the Chinese? If we possess ability in speculation, a large business as that of the Chinese can be expected. Therefore we assemble our intimate friends and subscribe together a capital to set up jointly a business in Hongkong under the style of the Tung Shing Wing to receive orders for national or various ports, to do Californian business and also to receive orders for goods of various countries. It is exactly what is called "the opportunity for opening up the source of wealth." It is expected that we, partners now, establishing this business in advance will be glorious afterwards. We have to use all our might and intelligence to pursue the skillful and we are to carry on the business in harmony and not to excite any displeasure among us. We have also to put forth our energy to foster a large business under agreeable and harmonious terms. Loss and profit shall be equally borne and shared respectively.

In safety or danger, sorrow or joy our original intention will be unchangeable from beginning to end and we should not give it up halfway. Then it may be hoped that the business set up in a foreign port will receive wealth from various sides and the foundation laid in a Chinese place will attract profit from all countries. Henceforth, thousands of tons of silver will be accumulated and innumerable valuables will flow in. This will be the great luck of the various partners. This is the preface made.

Here followed a comprehensive translation of the conditions under which the business was to be conducted with a list of the various partners, the total amount of the share capital being \$15,000.

Continuing, Mr. Alabaster said that according to the Chinese ideas there were 31 partners but he would show that there were even more than 33.

His Lordship—But we have to go only beyond twenty?

Mr. Alabaster—Yes, my Lord, but I am putting it forward in case the number is cut down. Proceeding, Mr. Alabaster said that a list had been received from Mr. Harding by Messrs. Golding, Barlow and Morrell, the most remarkable feature of the list being that the number of partners was exactly 30. The names of the partners were not in the same order as appeared on the pleading. Two men were evidently masquerading as one.

Mr. Potter said that partners would go into the box and would say that at the end of 1909, a new partnership was started. The actual number of partners who had shares was not more than 20. Although that was no answer to the point raised by his Lordships to whether names were persons yet it was quite clear that not only did the defendant have the \$15,000 but that he had gone into the box and actually performed his duty. His evidence as a witness would be absolutely discredited.

His Lordship said he would have to decide by his experience in that Court.

Mr. Potter said he would prove that even if there were 100 partners in the firm his client was entitled to the money. He would show that his client did not come within the mischief of the Companies Ordinance. If there had been a contract, they agreed they could not sue, owing to the contract being tainted by the company's illegality, but there had been no contract. The defendant admitted having taken the money. He put it into his own pocket and disappeared. The question, therefore, arose: Does the property of any illegal firm, illegal because of the fact that the membership consists of more than 20 persons, lie at the mercy of anybody without the firm having any redress whatever? Counsel submitted that that was not so and proceeded to cite authorities in support of his contention.

His Lordship—I'm not satisfied with the case.

Mr. Potter—Then I ask your Lordship for leave to amend.

Mr. Alabaster—I object.

His Lordship—I can't do that, Mr. Potter.

Mr. Potter—Your Lordship must take into consideration the character of the man.

His Lordship—That has nothing to do with it.

Mr. Potter—Leave to amend is purely an act of grace on your Lordship's part. It's in your Lordship's power to do so.

His Lordship—But I can't mulct the defendant in costs unnecessarily.

Mr. Potter—At the same time your Lordship must not assist the defendant.

His Lordship—We must stop from arguing the point. It's most important.

Mr. Potter—I'm not for a moment trying to evade it. Leave to amend was suggested by me as an alternative and was wholly evoked by me.

After much argument, the case was adjourned.

## RUBBER COMPANY REPORTS.

## KEPONG RUBBER ESTATES.

The annual general meeting of the Kepong (Malay) Rubber Estates, Ltd., was held on May 24 at the Great Eastern Hotel, E.C., Sir Gordon Blennerhassett, V.C. (the Chairman) presiding.

The Chairman said: Dealing first with the balance-sheet, I would like to call your attention to the fact that our authorised capital now stands at £15,000 instead of the £10,000 at which it stood at this time last year. We have issued £1,500 of this extra capital to existing shareholders at a premium of £1.10, and this will account for the next item of £3,900.

Last year I told you we expected to produce in 1909 14,000 lbs of rubber; we have actually produced 20,391 lbs, and have realised the sale of that rubber £7,840, or an average net price of 7s 8½d per lb, compared with 4s 4½d for the previous year. We have made no record price in the actual amount received for any particular lot of rubber, but the uniformly high rate we have been receiving speaks well not only for the careful manner in which our crops were harvested, but also for the very skillful way in which they were treated for us by the neighbouring estate of Kuala Lumpur. The amount available for distribution this year is £2,977, out of which your directors recommend the payment of a dividend of 10 per cent, less income tax, leaving £727 to be carried forward.

Our manager estimates that we shall produce in the present year 35,000 lbs of dry rubber, and I think we may consider that a very conservative estimate. We have arranged to clear and plant another 100 acres on our property and also to set up machinery for carrying on our rubber, which up to the end of the present year will be done by the neighbouring estate of Kuala Lumpur. For the present year we have made no forward sales, but I think it right to tell you that for the year 1911 we have arranged to sell a minimum amount of 40,000 lbs or maximum amount of 50,000 lbs at the price of 8s 6d per lb. (Applause.)

Mr. O. H. Fuerth was re-elected a director, and Messrs. J. D. A. Norris and Co. were re-appointed auditors.

Mr. R. N. Carvalho suggested that, in view of the present price of the company's shares, it might be well to issue the balance of the capital. There seemed to be trouble in regard to labour, and it would be well to have funds to fall back upon.

The chairman said the idea of the directors was that the shares would be held in reserve until there was some prospect of the money being required. He was inclined to think that the labour trouble was not so acute as he would have had to report had he been addressing the shareholders some little time ago. Fortunately their manager had a very firm grip over the labour market. The question of issuing the unissued capital would, however, receive the careful consideration of the directors.

## JOKORE RUBBER LANDS.

The annual meeting of the Johore Rubber Lands (Malay), Ltd., was held on May 24 at Winchester House, E.C., Mr. G. Anderson presiding.

The Chairman said that although Johore had suffered from disastrous floods recently the company's estates had escaped lightly. The water had subsided, and they hoped to learn by the next mail that the damage to the young trees was less than anticipated. The company had ample funds in hand for the future, and they found they could depend upon sufficient labour force and adequate supervision. If they could not be assured the directors would stay their hands.

## ANGLO-JAVA RUBBER AND PRODUCE.

The statutory meeting of the Anglo-Java Rubber and Produce Company, Ltd., was held on May 13 at the registered office, 18, Leadenhall Street, E.C., Mr. J. W. Linde (Chairman of the company) presiding.

The Chairman said: As you all know, this meeting is a purely formal meeting, called only to comply with the Companies Act of 1908. The last instalment for the property was paid on the 28th April, and all the shares in two Dutch companies are now in this company's possession. The contract with the Handelsvereeniging "Amsterdam" provides that the estates should be handed over in good and plantable condition, and the directors have, therefore, taken steps that an expert should be sent to inspect the property. Probably some of you will have seen in the financial press that Messrs. Maclean Watson and Co. have resigned their position as agents of the company in Java, and they have sent us as official intimation to the same effect. As a matter of fact, Messrs. Lister and Co., Ltd., are the commercial agents for the company, Messrs. Maclean Watson and Co. being agents in Java, and naturally subordinate to Messrs. Lister and Co., Ltd., and responsible to them. Messrs. Maclean Watson Co. write to us that it was understood that they were to act in conjunction with Messrs. Kooy and Co. in Soerabaya, but the Board can assure you that they never made any arrangements to that effect.

The Board have arranged with the Handelsvereeniging "Amsterdam" that the administration of the estate should be continued by them on behalf of the company until the 30th June, as it would be impossible to hand over the management of estates of such magnitude as these on the spur of the moment directly the purchase money had been paid. Messrs. Lister and Co., Ltd., who are the commercial agents of the company, have informed the Board that they have been making arrangements for the establishment of their own firm in Soerabaya, and that arrangements for the administration of the estates by them will be completed by the 30th June. We have received from the Amsterdam Office of Messrs. Lister and Co., Ltd., an estimate of the value of the produce from our estates from November 1909 till December 1910, showing a profit of about £6,500, should like to point out to you that this valuation is made on a conservative basis. You will see that in the prospectus the net profit for the year 1910 was estimated at

£6,600, and, therefore, I can say that the prospects of the company may be considered satisfactory. In order that the formal business of the meeting may be completed I will now move that the directors' report be adopted, after which I shall be happy to answer any questions you may wish to ask.

Mr. Thomas Carritt seconded the motion, which was unanimously adopted without further comment.

## LEDBURY.

The report for 1909 states that beyond planting up land already felled and some small pieces to round off fields, no attempt has been made to extend cultivation during the year, all efforts being devoted to organisation, and to getting the estates into thoroughly good order. The area under tapping has been 562 acres, from which has been obtained an output of 66,887 lbs. dry rubber, as compared with 28,956 lbs. obtained in 1908 by the former owners of the estates. The average price realised for the rubber after deduction of freight, landing, and all sale charges, were slightly over 7s. 7d. per lb. The output for 1910 is estimated at 90,000 lbs. After writing off the whole of the preliminary expenses and making allowance for depreciation, for proportion of management expenses, and for expenditure on the area in tapping, the revenue account shows a profit of £16,478, which the directors recommend be dealt with as follows:—A dividend at the rate of 7½ per cent, £13,125; to reserve, £1,700; to employees' bonus fund, £1,000; forward £653.

## LANADRON.

After making allowance for depreciation, for proportion of management expenses, and for expenditure on the area in tapping, the revenue account for 1909 shows a profit of £73,217 to which has to be added the sum brought forward, making a total of £75,747. An interim dividend of 10 per cent, was paid in November last, and the directors now recommend a final dividend at the rate of 17½ per cent, less tax. A sum of £7,000 is placed to reserve, and £3,150 to the employees' bonus fund, leaving £1,341 to be carried forward. The average price realised for last year's crop, after deduction of freight, landing, and all sale charges, was slightly over 7s. 5d. per lb. The output for 1910 is estimated at 370,000 lbs. The report notes that the estate is clean weeded, and the resident mycologist is ready to detect any new pest or disease that may make its appearance. Shareholders will observe with satisfaction that there has been no undue haste to tap young trees, and will also note that the board had wisdom to set aside a fairly substantial sum to reserve. Even though the price of the raw material drop to a low level, the company's future should be well assured, it being anticipated that the tappable areas during 1911 will be increased by 3,000 acres. The yield per acre per annum on the area tapped, which worked out at 443 lbs., as against 317 lbs. in 1908 and 275 lbs. in 1907.

## CALCUTTA CHINESE RIOT.

## SEQUEL TO GAMBLING DISPUTE.

A report reached the Calcutta Police Station on Wednesday relating to what is alleged to be a serious Chinese riot which occurred in Blackburn's Lane, on Tuesday night resulting in four Chinese being more or less seriously wounded, two of whom have been removed to the Medical College Hospital where they are detained under treatment, reports the *Indian Daily News* of 26th May. It appears that a Chinaman named Shen Keway, lately a cook employed on a vessel, went to a Chinese gambling den situated in the same lane and won some money which the banker paid to him. Finding that short payment was made to him Shen Keway drew the attention of the banker who indignantly retorted that Shen did not know how to count. On this Shen produced and counted out the money on the table in front of the banker, and again alleged that short payment had been made to him. On this the banker snatched up the money and flung it at Shen Keway. As the money was scattered over the floor Shen Keway made a demand for payment from the banker when he alleged he was seized and roughly handled by three or four men, who assaulted him with clenched fists and pushed him out of the establishment. Shen Keway in order to escape from further violence said he took shelter inside a neighbouring shop where aerated waters, coffee and cigarettes were sold. In this shop, which is very small with scarcely enough space to accommodate half a dozen men, some four other Chinamen were refreshing themselves. Some 25 Chinamen armed with lathies and knives from the gambling den, it is alleged, followed in pursuit of Shen Keway and locked the door of the shop in which he had sought shelter. For about half an hour empty soda water bottles and brick bats were flung into the shop. The Chinamen inside the shop broke down the back of the shop and thus made good their escape, though not before four had been seriously injured.

## INTERPORT POLO.

The *N. C. D. News*, of 22nd Inst., says:—No doubt the intense heat accounted for the falling attendance of players yesterday evening, also for the lack of vigour displayed during the games.

Mr. Landale was absent, so that it was impossible for selected four to play a final game together. There was one chukka played consisting of the other three members (Messrs. Dallas, McEwen and Hayes) with Harlley taking Mr. Landale's place at back. They beat a weak team somewhat easily.

There was a distinct gloom after one of the chukkas when Mr. Keylock sustained a severe blow from a ball in the eye. All polo players and spectators will wish this well known and highly popular player a speedy recovery and no permanent injury.

## TYPHOON WARNING.

The telegram quoted below was received from the Manila Observatory at the American Consulate General in Hongkong:—

Cyclone of Typhoon character over Balabac Channel, 24 miles W. of Manila.

## TRADE MARK IMITATION.

## A JAPANESE HOTCHKISS.

We have been shown an interesting example of Japanese industrial enterprise which should rightly be exhibited in the Anglo-Japanese Exhibition now open in London. The article in question is an automatic paper-faster such as is used in almost every merchant's office, and is almost a fac-simile of the "Hotchkiss No. 1" paper-faster made in Connecticut, U.S.A. The Japanese imitation, however, is called the Hotchkiss No. 18 and the "No. 18" is actually described as a trade-mark. In general construction and design the Japanese-made machine is almost indistinguishable from the real genuine article, but there are at least one or two evidences of carelessness and clumsiness which at once stamp the thing as being an imitation. For example, one side of the machine bears the word "Hotchkiss" and curiously the same mistake occurs in the illustration printed upon the box in which the machine is sold. Another curious fact is that on the box the machine in one place is called the "Hotchkiss No. 1 Automatic Paper FASTER," which happens to be the description of the genuine American-made article. The manufacturer of this impudent imitation of a foreign-made article modestly omits to give his name either on the machine or on the box. All that appears in the shape of a clue as to the maker are the letters "K. S. H. & Co." This is not very much to go on in an inquiry as to work upon, but the initials are not unfamiliar, and possibly the makers of the genuine "Hotchkiss No. 1" might find it to their advantage to make some inquiry into this flagrant case of imitation, not of a trade-mark only, but of the whole machine. But of course even if action is taken it will have to be proved that the ingenious counterfeiter knew that he was imitating an article already patented in Japan.—*Japan Chronicle*.

## DEATH OF YOUNG PLANIER.

## HYDROPHOBIA AT JUMU.

Penang, 19th June.

The death occurred at the General Hospital yesterday afternoon of Mr. Findlay, the manager of the Jumu Estate, and a brother of Mrs. Harry Hilton. He was only twenty-three years of age and was married recently.

It is stated that the cause of death was hydrophobia, as the result of a puppy bite. The deceased Mr. Findlay, was a son of Mr. John Findlay, of Hankow, a tea buyer for the prominent Russian firm of Molchanoff, Pechanoff & Co. He was a brother of Mrs. Harry Hilton of Penang, and of Mrs. T. O. Anderson, whose husband is in the Hongkong and Shanghai Bank, Calcutta, and was formerly in the Straits. The deceased came out to Shanghai where he was for some time before coming to the Jumu Estate, which is about eight miles south of Penang.—*Singapore Free Press*.

THE *Shanghai Times* is informed that the tender of Messrs. Howarth Enkles, Ltd., for the electric lighting of the new royal palace at Peking has been accepted. The contract is a big one; the estimated cost being something between £1,000,000 and £2,000,000.

## Shipping—Steamers.

CANADIAN PACIFIC  
RAILWAY CO'S

Royal Mail Steamship Line.

## "EMPERESS LINE."

Between China, Japan and Europe via Canada and the United States, calling at Hongkong, Shanghai, Nagasaki (through the Inland Sea of Japan) Kobe, Yokohama, Victoria and Vancouver B.C.

The only line that maintains a Regular Schedule Service of 12 DAYS HONGKONG TO VANCOUVER, SAVING 5 TO 7 DAYS' OCEAN TRAVEL.

Proposed sailings from Hongkong and St. John, N.B., &amp;c.

(Subject to alteration.)

Connecting with Royal Mail Atlantic Steamers.

From Hongkong.	From Quebec.
"EMPERESS OF INDIA" SATURDAY, JULY 16TH.	"EMPERESS OF IRELAND" FRIDAY, AUGUST 13TH.
"MONTEAGLE" TUESDAY, AUGUST 16TH.	
"EMPERESS OF JAPAN" SATURDAY, AUGUST 6TH.	"ALLAN LINE" FRIDAY, SEPT. 2ND.
"EMPERESS OF CHINA" SATURDAY, AUGUST 27TH.	"EMPERESS OF BRITAIN" FRIDAY, SEPT. 23RD.
"EMPERESS OF INDIA" SATURDAY, SEPT. 17TH.	"ALLAN LINE" FRIDAY, OCT. 14TH.
"EMPERESS OF JAPAN" SATURDAY, OCT. 8TH.	"EMPERESS OF IRELAND" FRIDAY, NOV. 4TH.

"Emperess" Steamers will depart from Hongkong at 6 p.m.

Each Trans-Pacific "Emperess" connects at Vancouver with a Special Mail Express Train and at St. John, N.B., or Quebec with Atlantic Mail Steamers as shown above. The "Emperess of Britain" and "Emperess of Ireland" are magnificent vessels of 14,500 tons, Speed 20 knots, and are regarded as second to none on the Atlantic. The "Emperess" Steamers on the Pacific and on the Atlantic are equipped with the Marconi wireless apparatus.

Passenger booked to all the principal ports in Canada, the United States and Europe, also Around the World.

HONGKONG TO LONDON, 1st Class, via Canadian Atlantic Port or New York (including meals and berth in sleeping car while crossing the American Continent by Canadian Pacific direct line).

Passenger for Europe have the option of going forward by any Trans-Atlantic Line either from Canadian Ports or from New York or Boston.

SPECIAL THROUGH RATES—Special rates (First Class only) are granted to Missionaries, Members of the Naval, Military, Diplomatic, and Consular Services, European Civil Services Officials located in Asia, and to European Officials in the service of the Governments of China and Japan, and the families.

Through Passengers are allowed Stop over privileges at the various points of interest en route.

R.M.S. "MONTEAGLE" carries only "One Class" of Saloon Passengers (termed Intermediate) the accommodation and commensurate being excellent in every way.

HONGKONG TO LONDON, Intermediate on Steamers and 1st Class in Canadian and American Railways.

Via Canadian Atlantic Port

Via New York

For further information, Maps, Guide Books, Rates of Passage and Freight, apply to—

J. CHADDOCK, General Traffic Agent, Corner Pedder Street and Praya (opposite Blake Pier).

## Consignees.

NOTICE TO CONSIGNEES.

FROM BOMBAY, COLOMBO AND STRAITS.

THE P. &amp; O. S. N. Co's Steamer

"DELTA"

Consignees of Cargo by the above-named vessel are hereby informed that their Goods are being landed and placed at their risk in the Hongkong and Kowloon Wharf and Godown Company's Godowns at Kowloon, where each consignment will be sorted out mark by mark, and delivery can be obtained as soon as the Goods are landed.

This vessel brings on Cargo—

From London, &amp;c., at 23. Maldivas.

From Persian Gulf, at B. I. S. N. and B. &amp; P. S. N. Co's Steamers.

Optional Goods will be landed here unless instructions are given to the contrary within 6 hours.

Goods not cleared by the 25th inst., at 4 P.M., will be subject to rent.

No Fire Insurance will be effected by me in any case whatever.

Damaged Packages must be left in the Godowns for examination by the Consignee and the Company's representatives at an appointed hour.

All claims must be presented within 10 days of the steamer's arrival here after which date they cannot be recognized.

No claims will be admitted after the goods have left the Godowns.

E. A. HEWETT, Superintendent.

## Consignees.

"BEN" LINE OF STEAMERS.

NOTICE TO CONSIGNEES.

S.S. "BENLARG"

FROM LEITH, ANTWERP, LONDON AND STRAITS.

CONSIGNEES of Cargo are hereby informed that all Goods are being landed at their risk in the Hongkong and Kowloon Wharf and Godown Co., Ltd., whence and/or from the wharves delivery may be obtained. No Claims will be admitted after the Goods have left the Godowns, and all Goods remaining undelivered after the 25th inst., will be subject to rent.

All Claims against the Steamer must be presented to the Underwriter on or before the 5th prox., or they will not be recognized.

All broken, chafed, and damaged Goods are to be left in the Godowns, where they will be examined on the 25th inst., at 11 A.M.

No Fire Insurance has been effected.

Bills of Lading will be countersigned by

GIBB, LIVINGSTON &amp; CO., Agents.

Hongkong, 22nd June, 1910. [449]

"SHIRE" LINE OF STEAMERS, LIMITED.

NOTICE TO CONSIGNEES.

FROM EUROPE.

THE Company's Steamship

"CARDIGANSHIRE"

having arrived from the above Ports, Consignees of Cargo are hereby informed that their Goods are being landed and placed at their risk in the Hongkong and Kowloon Wharf and Godown Co., Ltd., whence and/or extra hazardous Godowns at Kowloon, where each consignment will be sorted out mark by mark, and delivery can be obtained as soon as the goods are landed.

Goods not cleared by the 25th inst., at 6 P.M., will be subject to rent.

No Fire Insurance will be effected by us in any case whatever.

All damaged packages must be left in the Godowns, where they will be examined at 9.30 A.M. on 30th inst.

No claims will be admitted after Goods have left the Godowns and will be recognized if presented after 10 days of vessel's arrival here.

JARDINE, MATHESON &amp; Co., Ltd., Agents.

Hongkong, 23rd June, 1910. [455]

NOTICE TO CONSIGNEES.

THE P. &amp; O. S. N. Co's Steamer
